

SIMAGCHEM

Your Partner For Chinese Market

SIMAGCHEM CORPORATION

Corporation

SIMAGCHEM was established in 1996. We are a dynamic and innovative chemical supplier company based in China. In term of our teamwork and EPR-BDL database, we are professional and successful in association with our principal partners providing our market intelligence to evaluate best suitable sources and JIT quick response system.

The company vision is to be a bridge between East-West trade in chemicals.

Service

As a reliable partner in China, we are specialized in bulk specialty chemicals. Consolidating sourcing, marketing, sales distribution and quality-control sections, we provide our partners with a full service of sourcing evaluation, regulation affair support, custom synthesis/contract manufacture for outsourcing, investment solution and suitable partnership establishment in China.

SOURCING

CUSTOM MANUFACTURE

QUALITY CONTROL

REGULATION COMPLIANCE

Plastic and Rubber

Product Name	Application
EDTA Acid	Mainly for the manufacture of fibers and plastics
Furfuraldehyde (Furfural)	Used in the manufacture of synthetic rubber, preparation of alcohol, can be used as oil cracking
beta-Naphthol	Synthetic Rubber Antioxidant
Triethyl phosphate (TEP)	Used for high boiling point solvents, plasticizers of rubber and plastic
Propionaldehyde	For production of propanol and propionic acid, also used for making synthetic fibers, rubber accelerator and antioxidant
Dodecanedioic Acid	For the synthesis of polyamides, long carbon chain nylon, high-grade lubricants
Undecanedioic acid	For the synthesis of plastics
brassylic acid	For the synthesis of hot melt adhesives and plastics, senior food packaging materials
TALC	Widely used in ceramics, paint, paper, textile, rubber, paint, household chemicals
Titanium dioxide	Used in paints, inks, plastics, rubber, paper, chemical and other industries.
monoethanolamine	Plasticizers, curing agents, accelerators and a foaming agent, the intermediate
Hexamethylcyclotrisiloxane	In the manufacture of methyl vinyl silicone rubber products
Triethyl Borate	For manufacturing a semiconductor device, synthetic organic boride, plasticizers, welding flu
Polycaprolactone	Plastic low temperature impact properties modifiers and plasticizers

Plastic and Rubber

Product Name	Application
Sodium borohydride 98%	As aldehydes, ketones, acid chloride reductant, plastic foaming agent
2,2'-Methylene-bis-(6-tert-butyl-4-methyl phenol)	Bisphenol antioxidant
Fumed Silica A-150	As natural rubber and synthetic rubber reinforcing filler
Tributyl phosphate	Plasticizers, coatings, inks and adhesives solvent
Monoethylamine	For the production of dyes, pharmaceuticals, surface active agents, herbicides, rubber vulcanization accelerator and the ion exchange resin
Mono-n-propylamine	Mainly for the manufacture of fibers and plastics
Sebacic acid	As raw materials of cold plasticizers, resins and nylon
Chlorotrimethylsilane	Mainly for the production of silicone polymers and intermediate
EDTA tetrasodium salt	As a chelating agent and solvent
Bismaleimide	For the preparation of electrical insulating materials, wear-resistant materials, reinforced plastics additives
Butyl Methacrylate	Polymer monomer and paint solvent
Methyl Tin Mercaptide	For the production of PVC plate, sheet, granulation, films, etc.
M-Toluidine	As cationic dyes, color film developer intermediates
Butylated Hydroxytoluene (BHT)	Plastics and rubber antioxidant
Vinyltrimethoxysilane	Silicone rubber crosslinking agent
Hexamethyldisiloxane	For silicone rubber, pharmaceuticals, gas chromatography stationary phase, analytical reagents, water-repellent agents
2-Mercaptobenzimidazole	Antioxidant, can reduce the discoloration of the rubber vulcanization
Octamethylcyclotetrasiloxane	Manufacture of high tear silicone rubber products

Customer Service Lines:

Tel: 0086 592 2680277 / 275 / 654 / 279
